

## Testimonials

"In the days since you've been gone, I've witnessed students solving their own conflicts, non-violently, and without adult intervention. This approach works. For the sake of our students, I hope all educators, parents, and students will give it a try." *Jane Steinkamp, Principal, The Jefferson School, Tracy, California*

"Great! I will take this back to my staff and train all the prevention specialists in our district. I loved going back to the Golden Rule and addressing the victim – not a school wide program." *Jennifer Tempfer, Prevention Specialist, Salt Lake City, Utah*

"Excellent!!! This seminar should be required for anyone working with or raising children. It truly presents the 'movement' that is needed in response to the 'bully scare'." *Philip Winter, Psychologist, Director of Mental Health Philadelphia, Pennsylvania*

"Izzy teaches kids to immunize themselves from bullying rather than relying on adults to protect them, which can often backfire. His methods quickly empower, turning victims into victors!" *Dr. Steve Sussman, PhD, Director, Child and Teen Success Centers of New York and New Jersey*
